TOTAL ACRES

Hawaii currently has 8 NAWCA projects either completed or underway. These projects have conserved a total of 9,297 acres of wildlife habitat. NAWCA funding of more than \$1.8 million stimulated partner contributions of more than \$26.5 million. These figures do not include multi-state projects.

HAWAII WETLANDS – OAHU

In Phase I of a multiyear endeavor, partners will acquire, restore, and enhance 6,147 acres of wetlands and associated uplands on the island of Oahu. Partners' conservation actions will focus on 7 of Oahu's 15 primary wetlands, or approximately 20 percent of the island's total wetland acreage. Protecting these habitats will help with the recovery of four of the six extant Hawaiian waterbird species: Hawaiian stilt, coot, moorhen, and duck.
