NUMBER OF PROJECTS

TOTAL ACRES

Oklahoma currently has 14 NAWCA projects either completed or underway. These projects have conserved a total of 38,569 acres of wildlife habitat. NAWCA funding of over \$4.9 million stimulated partner contributions of more than \$11.4 million. These figures do not include multi-state projects.

DRUMMOND FLATS PHASE I

The historic core of Drummond Flat is a historic confluence of three watershed drainages (Turkey, Elm, and Salt Creeks). Partners will permanently protect at least 3,000 acres, which will ultimately be managed by Oklahoma Department of Wildlife Conservation. Once hydrology and vegetative characteristics are restored, the project area will provide an estimated 4.0 million duck-use-days.

The project area will provide critical wetland habitat between the Prairie Pothole and Gulf Coast regions in the Central Flyway. The area contains migration and wintering habitat for 4 NAWMP high priority and 5 priority waterfowl species, such as northern pintail, greater and lesser scaup, American wigeon, and canvasback. The project will also benefit 3 priority landbirds, at least 5 federally listed species, and 17 other species listed as either NAWCA priority wetland dependent species or Central Mixed Grass Prairie associated species.

	PROJECT NAME	GRANT AMOUNT	PARTNER CONTRIBUTION	TOTAL INVESTMENT	TOTAL ACRES
1.	BONSER MARSH	\$31,000	\$67,343	\$98,343	100
2.	DEEP FORK NWR	\$75,000	\$75,000	\$150,000	141
3.	DRUMMOND FLATS PHASE I	\$700,000	\$1,599,402	\$2,299,402	3,000
4.	SHAFFER PLAYA, OKLAHOMA	\$75,000	\$76,320	\$151,320	212
