NAWCA GRANT AMOUNT

TOTAL PARTNER CONTRIBUTION

NUMBER OF PROJECTS

TOTAL ACRES

Texas currently has 84 NAWCA projects either completed or underway. These projects have conserved a total of 580,492 acres of wildlife habitat. NAWCA funding of more than \$41.3 million stimulated partner contributions of over \$88.5 million. These figures do not include multi-state projects.

TEXAS GULF COAST XIII

This proposal continues a 24-year partnership of private landowners, a private foundation, state and federal agencies, and non-governmental organizations, committed to the long-term support of wetlands conservation on the Texas Gulf Coast, and will include projects across each of the three initiative areas within the Texas portion of the Gulf Coast Joint Venture (Chenier Plain Initiative Area, Texas Mid-Coast Initiative Area, and Laguna Madre Initiative Area). This proposal will restore, and enhance an additional 2,519 acres of wetland habitat on private lands that will provide important migration, wintering, and breeding habitat for numerous species of waterfowl, shorebirds, wading birds, and neotropical migrant songbirds.

This proposal will provide breeding habitat for black-bellied and fulvous whistling ducks as well as wintering/migration habitat for 6 high priority (mottled duck, northern pintail, mallard, lesser scaup, greater scaup, and Cackling Canada Goose) and 5 other priority waterfowl species (redhead, canvasback, American wigeon, wood duck, and ringnecked duck), and over 30 NAWCA priority waterbird and landbird species.

NAWCA GRANT AMOUNT

TOTAL PARTNER CONTRIBUTION NUMBER OF PROJECTS

TOTAL ACRES

Texas currently has 9 NAWCA projects either completed or underway. These projects have conserved a total of 260,945 acres of wildlife habitat. NAWCA funding of more than \$4.2 million stimulated partner contributions of over \$15.2 million.

	PROJECT NAME	GRANT AMOUNT	PARTNER CONTRIBUTION	TOTAL INVESTMENT	TOTAL ACRES
