USS TEXAS BROWNING CITORI GRAN LIGHTNING, A PIECE OF THE BATTLESHIP TEXAS AND COMMEMORATIVE TEXAS FLAG

In celebration of the 100th anniversary of the 1914 Battleship Texas Commissioning, the Battleship TEXAS Foundation commissioned a limited run of custom engraved Browning Citori Gran Lightning shotguns. This commemorative shotgun features silver and gold engraved etchings of the 1914 USS Texas, the upgraded 1927 USS Texas, the Star of Texas, and the Mighty T ship logo. Additionally, all five of the major WWII battles that the USS Texas participated

in are etched in gold and silver on the belly. On the over/under shotgun’s receiver, there are two side-view/profiles of the ship: one from 1914 (left) and one from approximately 1944 (right). Both are silver plated. Surrounding them is rope loop, plated in 24-karat gold, and underneath is a silver banner with USS TEXAS and six stars, also in 24-karat gold plating. Inside the loop and surrounding the profiles is engraved American vine scroll. On the receiver’s underside is the wording: “The Mighty T,” in 24-karat gold plating with a silver-plated background. There are also five, gold-plated battle stars that designate the ship’s major WWII battles, which are listed just underneath. As with the sides, the gold-plated rope and American vine-scroll engraving surround the underside’s perimeter. The trigger is gold plated, as is the single battle star that adorns the top lever. The Gran Lightning features an upgraded, high-quality wood stock and forearm, 28-inch barrel length in 12 gauge.

The Citori over/under will also come with a certified piece of original riveted steel, salvaged from the old battleship. The piece measures 12" by 5.5" and weighs 8.5 pounds mounted for display. Truly a unique piece of history.

USS Texas is one of six remaining ships to have served in both world wars. In World War II, she shelled Axis-held beaches in North Africa, Normandy, Cherbourg, and Southern France before being transferred to the Pacific theater where she would support the Battles of Iwo Jima and Okinawa. She holds the distinction of being the first U.S. battleship to mount anti-aircraft guns, radar, and to launch an aircraft. Today she is the only remaining dreadnought battleship in the world, a testament to the craftsmanship of her builders. Texas was decommissioned in 1948, having earned a total of five battle stars for her service in World War II. The battleship is now a U.S. National Historic Landmark in LaPorte, Texas. To round out this package is a Texas state flag flown over the state capitol in Austin on January 29, 2017 to commemorate Ducks Unlimited's 80th Anniversary.
