

10 MILLION ACRES... *and counting*

Ducks Unlimited's first project, 1937

Since its founding in 1937, Ducks Unlimited has conserved more than 10 million acres of habitat for North America's waterfowl and other wildlife. That's a remarkable success story, but it's only the beginning. The United States alone has lost more than half of its original wetland wildlife habitat, and we continue to lose more than 100,000 acres of wetlands each year.

**Help us conserve another 10 MILLION ACRES.
